

SYGIC MAP DRIVE 10 UPDATE PROCEDURE

Thank you for purchasing Sygic Drive 10 Navigation software for your in car entertainment equipment.

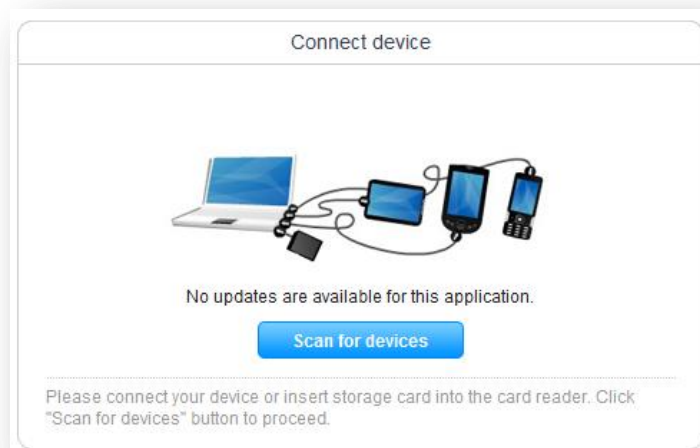

Should you wish to update your map software to the latest version please follow the procedure at the web address below.

<https://static.sygic.com/pages/pndupdate/>

This process will down load the Sygic Update Assistant onto your computer.

Once you have downloaded the Update Assistant you will be asked to 'Connect Device'. As you are using maps loaded onto a micro SD card you will need to remove this from the device/media player first. Once removed Insert the micro SD card into a Micro SD/SD card reader and then insert the card reader into your computer. Then from the Update Assistant push 'Scan for Devices' and it should find your card/map software. From there please follow the update procedure, there will be costs involved with the update which will be dependent on current offers/pricing at that time.

For further information please contact our service department at DLG International 09-571 3375
